

## Renewable Energy Certificate Information

**This offer meets CT's 2024 minimum of 37% mandatory renewable energy certificate requirements.**

All suppliers must purchase a minimum amount of renewable energy certificates\* from generating sources based on the amount of electricity the supplier sells in Connecticut to meet the state's Renewable Portfolio Standards (RPS).

The renewable energy certificates must be from these sources:

Class I 28% – solar, hydroelectric, wind and Fuel Cell

Class II 4% - trash-to-energy sources.

Class III 5% - Combined Heat and Power facilities, energy efficiency projects.

Learn more about CT's RPS requirements at [CT RPS Overview](#).

## Voluntary Renewable Offer

**This offer provides an additional \_\_\_\_% of renewable energy certificates on top of the state-required minimum.**

Suppliers can purchase renewable energy certificates supported by \_\_\_\_% of usage not already supporting the minimum required renewable energy certificates (the gray portion of the chart above) through Voluntary Renewable Offer (VRO) products. Selection of this VRO product means that your usage supports the purchase of \_\_\_\_% of renewable energy certificates in addition to the state-required minimum renewable energy certificates described above.

These renewable energy certificates come from resources defined as Class I in Conn. Gen. Stat. § 16-1 and ISO-NE, New York or PJM Control areas. This includes portions of Delaware, District of Columbia, Ohio, Illinois, Indiana, Michigan, Maryland, North Carolina, New Jersey, Pennsylvania, West Virginia or Virginia.

*\* All renewable energy certificates represent the attributes of renewable generation sources as defined in Connecticut statute. To learn more about renewable energy certificates visit [EngizeCT](#). **The supplier's purchase of these renewable energy certificates DOES NOT mean that the specific electricity that you are buying through this offer comes from the renewable sources indicated on this Label.** Please refer to the next page (generation source information) to see the makeup of the electricity delivered.*

For information about the renewable energy certificates that are supported through this offer visit [www.engieresources.com/connecticut-state-compliance](http://www.engieresources.com/connecticut-state-compliance), You can also contact CT's Public Utilities Regulatory Authority at 800-382-4586 or [pura.information@ct.gov](mailto:pura.information@ct.gov)

## Generation Source Information

### Resources Used To Generate Your Electricity & Related Emissions

The electricity for this offer comes from the following generation sources:  
**NEW ENGLAND REGIONAL GENERATION MIX**

\*Renewables include: Wind, Refuse, Wood, Solar, Landfill Gas, Methane, and Steam

### EMISSIONS 2021

Natural gas	436.5 lb/MWh
Nuclear	0 lb/MWh
Renewables	247.0 lb/MWh
Hydroelectric	0 lb/MWh
Other	66.4 lb/MWh
