GDF SUEZ ENERGY RESOURCES TO HOST *CURRENT INTELLIGENCE* WEBINAR ON SUSTAINABILITY AND ENERGY EFFICIENCY

HOUSTON, MAY 22, 2012 – GDF SUEZ Energy Resources NA, one of the largest competitive retail electricity providers to commercial, industrial, and institutional customers in the country, will host a national webinar on June 14 titled *Sustainability and Energy Efficiency*.

The complimentary, one-hour presentation, scheduled from 11 a.m. to noon CST, will feature speakers from American Energy Solutions, an energy services management company, who will provide attendees with tips on reaching sustainability goals while gaining a competitive business advantage. The webinar is the second in the quarterly series *Current Intelligence*, which is hosted by GDF SUEZ Energy Resources and focuses on timely subject matter that is informative to commercial, industrial, and institutional electricity buyers.

“Industry changes and stricter environmental standards have made sustainability an increasingly critical component to building an effective energy management strategy,” said David Coffman, Vice President of Marketing for GDF SUEZ Energy Resources. “This webinar will help give buyers a better understanding of how to balance business with the environment and find innovative ways to improve profitability through eco-friendly practices.”

Experts from American Energy Solutions will discuss the following topics:

- Meeting sustainability goals through energy efficiency upgrades
- Using energy efficiency audits to gain a competitive advantage
- Available tax benefits, rebates, and incentives for energy efficiency projects
- The potential benefits of cost performance reviews
- Supply chain reporting and public disclosure

Commercial, industrial, and institutional electricity buyers interested in participating in the event can register at www.electricitywebinars.com.
